

Concordance[®] FYI[™]

Extends the Reach of Concordance[®] and Concordance[®] Image

Real-Time Case Access Anytime, Anywhere, Anyway

Litigation today requires real-time collaboration of discovery documents. With Concordance[®] FYI[™], you'll have everything you need to stay connected to your litigation repository — from anywhere. The secure, centralized FYI server offers remote access from both a web browser and your installed Concordance software at the main office. Discover how easy it is to bring your satellite offices, co-counsel, experts, and clients together to collaborate on discovery documents in real time.

FYI SERVER FEATURES & BENEFITS

Powerful Administrative Tools

Freedom from tedious administrative tasks delivers huge productivity gains and cost savings.

- **Drag & Drop Database Setup:** configure once; use again and again
- **Automated Administration and Indexing:** no downtime; seamless searching after editing
- **Trackable User Activity:** generate detailed log reports

Advanced Data Security

Concordance FYI boasts state-of-the-art Internet security.

- **True SSL Encryption:** for secure, yet flexible connections
- **Drag & Drop User Security Setup:** huge timesaver
- **Robust User Security:** restrict how users log in and what they see
- **No Web Server Required:** alternative to risky web servers
- **Intruder Lock Out:** server- and database-level firewall settings

Easy Setup and Deployment

Administrators can quickly install and easily maintain the software on a central server.

- **Fast, Scalable Deployment:** no bulky SQL setup; roll-out in hours, not weeks
- **Simple to Administer and Use:** individual desktops don't require configuration for remote access

Anytime, Anywhere, Anyway Access

Whether in the office or on the road, you can securely access your case data.

- **Mix and Match Software Licences for Maximum Flexibility:** access case data remotely using FYI Reviewer[™] via the web or Concordance and Concordance Image from the desktop
- **Secure, Centralized Remote Access:** perform server maintenance remotely
- **Deliver "Offline" Access:** users can work on a local database while on the road

FYI REVIEWER FEATURES & BENEFITS

- **Built-In Image Viewer:** quickly retrieve, view, and annotate scanned images
- **Multi-level Tag Folders:** group facts by category for quick retrieval
- **Intuitive User Interface:** ideal for the uninitiated
- **Streamlined Case Organization:** easily find matters and documents
- **High Speed, High Performance:** built on the tried-and-true Concordance engine
- **Email and E-Discovery Repository:** quickly review native files
- **Simple Search in the Style of the Google[™] Search Engine:** perfect for your techno-phobic users
- **Powerful Right-Click Features:** utilize all your Concordance favourites from Tally to Send to Excel[®]
- **Search Multiple Databases Simultaneously:** cut down on review time
- **Multi-select Records, Drag & Drop Tagging:** tremendous timesavers
- **Utilize Best-of-Breed Integration:** CaseMap[®], LiveNote[®], IPRO[®], Syngence[®], and more

2. Remote Access from FYI Reviewer or Concordance
3. Powerful User Administration for Internal and External Management
4. Pass on Monthly Seat Charges to Clients
5. Flexibility: Expensive SQL/Oracle[®] Expert Not Required

Connecting Your Litigation Teams with Concordance® FYI™

FYI Server System Requirements

- Concordance licence for administration
- Microsoft® Windows® 2000/2003
- Dual 3GHz Xeon® or Pentium® HT processors or higher
 - User capacity is metered by the hardware
 - Each Pentium CPU will support 25 users
 - Each Xeon or hyperthreaded CPU will support 50 users
- 4 GB of RAM or higher
- Disk Caching, fault tolerant RAID 1+ 0 array controller
- T1 or equivalent bandwidth
- 2 open ports in the firewall for inbound and outbound traffic
- Microsoft® Internet Explorer®
- Windows compatible mouse

Note: The information referenced is a general outline. It is always better to have more memory and a faster processor. Network connection speed, network traffic, database and imagebase size, and other items may be a factor when evaluating performance. System requirements are subject to change.

*Only users with Concordance 8 or higher can access FYI remotely.

FYI Reviewer Requirements

- FYI Reviewer ActiveX plug-in
- Microsoft Internet Explorer
- Internet access
- Windows compatible mouse
